OURL MESSAGE

IUPUI is Indiana's urban research institution and 3rd largest university campus. We combine the academic strengths of both Indiana University and Purdue University with the advantages of being located in a diverse and dynamic urban setting. Our unique combination of degrees and access to resources cannot be matched by any other campus in Indiana.

OUR HISTORY

IUPUI was founded in 1969 as a partnership between Indiana University, Purdue University, and the city of Indianapolis.

With our urban location in the state's capital, students have opportunities for learning and living found nowhere else in Indiana. Our world-class campus is located within blocks of governmental offices, the center of the business and financial district, professional and amateur sports, theatres, museums, and restaurants. IUPUI is bordered by four hospitals, and connected to a fifth by tram, connecting students to unparalleled resources for research and experiential learning.

IUPUI alumni impact Indiana every day. Among our more than 140,000 living alumni, approximately 85% of Indiana's dentists were trained at the School of Dentistry. More than half of Indiana's physicians come from the School of Medicine. Nearly half of the state's lawyers attended the School of Law here. More than 1/3rd of Indiana's nurses come from the School of Nursing.

IUPUI has more than 7,000 full- and part-time faculty and staff to serve more than 30,000 students. More than one in four students are graduate students, and IUPUI's enrollment includes students from all 50 states and 140 countries.

SUMMER & FALL 2011 FRESHMEN COHORT

# of Applicants: 9,619
# of Non-Resident Applicants: 1,250
% Admitted: 69% (6,597)
# Enrolled: 2,767
Average High School GPA (4 pt): 3.28*
Average SAT Score (MA & CR): 1013*

RISE to the IUPUI Challenge Initiative

The RISE to the IUPUI Challenge initiative engages students more deeply in their learning and contributes to their intellectual and professional development in unique ways. Each undergraduate student is challenged to include at least two of the four RISE experiences — research, international, service learning, and experiential learning — into their degree programs.

The RISE to the IUPUI Challenge initiative enhances the teaching and learning process that occurs during formal classroom coursework. The initiative builds on IUPUI's long tradition and commitment to experiential learning. Each RISE category incorporates qualified experiences, integration of knowledge, reflection, and assessment, and will be documented on students' transcripts. More information is available at iupui.edu/rise.
