Understanding Your Transfer Credit Report

TRANSCRIPTS: All of the transcripts provided with your application have been made available to your IUPUI School. All transfer credit is subject to final approval by the dean of the IUPUI School in which you are enrolled.

GRADES: You must earn a grade of C or higher for the course to transfer. (Note: Purdue students are exempt from this policy and all grades are posted if pursuing a Purdue major at IUPUI.) Grades of P or S are also eligible for consideration. If a course was repeated, only the highest grade is evaluated.

CRITERIA: If you have completed more than 90 hours of college-level work with a C or higher and:

- You are pursuing your degree, all 100-level, 200-level, and 300-level courses have been evaluated and posted. 400-level work is posted strictly for the IUPUI School offering your new major. Some IUPUI Schools do not accept 400-level transfer credit.
- You have a bachelor’s degree and are pursuing an associate’s degree, all 100- and 200-level courses are posted with other relevant courses. 300- and 400-level courses are rarely relevant.
- If you are pursuing a certificate, only relevant courses are evaluated.

MILITARY TRAINING: By policy, Purdue majors have a maximum of 8 hours of credit and IU majors no more than 15 hours of credit.

GPA NOTE: As a transfer student, unless you are transferring from another IU campus, you will be starting with a fresh GPA. Once your first semester is completed, you will have started your new IU GPA.

TRANSFER CREDIT REMINDERS:
- If you were admitted to IUPUI before completing coursework at your current college, remember to request that a final transcript be sent to us.
- Business courses taken at the 300- or 400-level are always transferred as elective credit. The IU Kelley School of Business will determine business course equivalencies after you have been accepted into its program.
- Clinical courses completed in undergraduate medical areas, nursing, and dental hygiene will not be transferred due to the specialized nature of these courses. The School of Medicine, School of Nursing, and School of Dentistry (Dental Hygiene) will determine if any of this coursework is transferable after you have been accepted into the program.
- The Herron School of Art will determine how all studio art credits transfer if you are accepted into Herron.

TO ACCESS YOUR TRANSFER CREDIT REPORT:

1. Visit onestart.iu.edu and login using your username and passphrase.
2. In the Student Self-Service, select “Go to Student Center.”
3. In the Academics Section, select “My Academics and Grades.”
4. Select “View Academic Credit Report.”

MAKING SENSE OF YOUR REPORT

The screen shot shows you a sample evaluation for a student who attended Ball State University. Please see the list below for help in reading your report:

- **Transfer Term**: Term the student is starting at IUPUI
- **Incoming Course**: Course subject and number at previous institution
- **Units Taken**: Credit-hour value at previous institution
- **Grade Input**: Grade earned in course (Note: For grades beginning with the letter T, the second letter is the original grade. T simply means Transfer.)
- **Equivalent Course**: IUPUI course and number
- **Units**: Credit-hours posted
- **Grade**: Grade transferred, based on grade earned (see Grade Input note above). Grades do not transfer, but are available internally for your advisor.
- **“-UN”**: Undistributed – there is no IUPUI course equivalent, but the course transfers as an elective credit.

RESOLVING UNDISTRIBUTED CREDIT

These credits may still count towards your program of study and your curriculum or they may just count as extra electives. It is up to each department as to whether the credit will be counted as an IUPUI course. This process can take time. The more prepared you are, the smoother the process will be. Make sure to keep your syllabi and course descriptions from your previous courses. It is important that you know that IUPUI wants to award you the credit, but it takes time and some work on your part.
